

I strongly urge the FCC to reject the NAB's petition 04-160. I fully support XM radio of the programming it provides that I deserve. XM Radio provides commercial free and a wide variety of music programming which I really like about the service. The local broadcasters do not offer this type of broadcasting, such as XM. I pay for XM's services and fully support XM. I believe that the service should be able to broadcast Instant Traffic and Weather programming to its listeners, who that pay for XM radio services.
Thank you,

Robert Curry
